- It saves you money. If you travel by bus and train within specified zones, using iLink could be better value for money than buying separate bus and train tickets.
- You can make as many journeys as you wish on your iLink Card within the Zone and time period your card has been issued for.
- It is a safer, cash free way to make your daily bus and rail journeys.
- iLink helps speed up boarding times on buses making overall journey times faster for everyone.
- If you lose your iLink Card it can be 'hotlisted' (electronically deactivated) to prevent anyone else from using it fraudulently.
